

BRAZIL AGRICULTURE TOUR TO THE EXPO LONDRINA

Expo Londrinha - Tour Extension

5 DAYS / 4 NIGHTS

Join the Expo Londrina Agricultural Show and see the highlights of Paraná on this Brazil Agriculture tour. Learn about biodiesel technology, visit local farmers cooperatives, and travel through the countryside of Paraná, the largest producers of grain and soy in Brazil. The Expo Londrina showcases Brazil agriculture, cattle, and farming methods and is the largest agricultural fair in Latin America. It's also a fun place for families to enjoy delicious Brazilian food, watch cattle being shown in the arena, and learn about the different regions of Brazilian farmland.

The Expo Londrina Agricultural Show takes place generally in the first half of April every year. Please confirm the dates of the show with one of our Travel Consultants.

Note: This is a tour extension, combine this tour with one of our full package tours.

ITINERARY

Days 1-2

ARRIVE IN LONDRINA & EXPO LONDRINA

Fly to Londrina from Rio de Janeiro or São Paulo. One of our friendly guides will greet you and accompany you to your Londrina hotel. Enjoy a welcome dinner at a local restaurant.

The following day, have breakfast at the hotel then spend the day at the Expo Londrina. This annual agricultural fair showcases the modern agricultural practices that have made Brazil a world leader in the agribusiness sector. Each year, global leaders in agriculture meet in Londrina to exhibit the best technologies, present pedigree farming animals and discuss the future of agriculture. Return to the hotel at the end of the day.

Day 3

TOUR THE SOYBEAN RESEARCH CENTER EMBRAPA

Visit the most important soybean research center in Brazil (EMBRAPA) to learn about the latest technologies in processing biodiesel fuels. See the experimental mill which produces about 400 hundred liters of biodiesel per day. Lunch is included on this tour. Return to Londrina in the afternoon.

Day 4

TOUR THE AGRONOMIC INSTITUTE OF THE PARANA IAPAR

The Agronomic Institute of the Paraná (IAPAR) is dedicated to experimental farming research in the state of Paraná. Visit the Institute as well as a grain farm to understand how research contributes to new agricultural practices. Lunch is included. Afterward, return to Londrina and spend the rest of the evening at your leisure.

Day 5

COAMO COOPERATIVE TOUR IN CAMPO MOURÃO

Head to Campo Mourão for the final day of the Brazil agriculture tour. Expand your knowledge even further at the COAMO Cooperative, the largest in Latin America. This cooperative invests millions per year in production and modernization. Visit the farm's cattle pastures and research centers and enjoy lunch on the premises (included). In the late afternoon, take a private transfer to Foz do Iguassu to continue your Brazil tour or fly to your next destination in South America.
