- Jungle Survival Training

## ITINERARY

#### Info: LOCATION

One of the great features of the Amazon Eco Park Lodge is how easy it is to reach from the port of Manaus. Once you arrive in Manaus, your guide will greet you and take you to the port, where you'll board a boat for the journey along the Rio Negro to the Rio Taruma, a tributary about a half hour's boat ride away. On the banks of the Taruma is the Amazon Eco Park Lodge, which has white sandy beaches, hammocks and thatched roofs, comfortable cabins, full buffets and delicious meals, and several guided excursions to choose from.

Info:

## AMAZON ECOPARK JUNGLE LODGE

Amazon Ecopark Jungle Lodge has 60 apartments distributed in 20 bungalows. Each unit has three apartments, made of concrete and wood. The bungalows are rustic, but they have carpets, night lights, porches, bathrooms, air conditioning, showers, windows with screens, and private entrances. Amenities include a pier, bar, boutique store with local handicrafts, air conditioned salon, games room, air conditioned TV room, and 4 natural bathing pools. Surrounding the lodge are several freshwater streams, virgin forests, natural savannahs, and creeks perfect for exploring in a canoe. The lodge features a panoramic, open-air dining room, decorated with indigenous artwork and handicrafts.

Info:

## MEALS

The menu includes regional dishes as well as international favorites. For breakfast, you can expect fresh seasonal fruit, such as watermelon, papaya, pineapple, mango, and banana, as well as fruit juices made from taperebá, cupuaçu, and açaí. Breads, muffins, cheese, ham, French toast, pancakes, jam and butter, coffee, milk, hot chocolate, and tea are all available. Eggs scrambled, fried, or served as omelets are prepared upon request. For lunch and dinner, the meals are served buffet-style, with various options of beef, chicken, or fish (tambaqui, tucunaré, pirarucu, and pacu) along with side dishes of rice, potatoes, veggies, salads, and fresh fruit. Desserts include pie with Brazil nuts, passion fruit pudding, banana meringue, chocolate cake, and more. Special diet meals are available upon request, but an extra charge may apply. The kitchen is also open to guests.

Activities:

## GUIDED NATURE WALKS

Along with a professional guide, you can choose several hikes that encircle the lodge. Traverse the jungle trails through virgin forests, natural savannahs, and freshwater streams. Your guide can point out the different flora and fauna, including orchids, medicinal plants, insects, and more.

Activities:

## NIGHT TOURS IN CANOES

At night, you can take a canoe ride through the creeks and streams to hear the jungle come alive. You may see small alligators, which have iridescent eyes and are easy to spot with a flashlight. Learn about the alligators - and you may even have a chance to see one up close if the guide catches one!

Activities:

## MEETING OF THE WATERS

A must-see activity is the Meeting of the Waters, where the Rio Negro and the Rio Solimões join together. These two mighty rivers have different densities, and so when they converge, the waters do not actually mix. Instead, the black waters of the Rio Negro and the brown waters of the Solimões form a line that runs for several miles. Downriver, they do converge and form the Amazon River. During this tour, your motorboat will take you along the Meeting of the Waters line, and then you'll have lunch at a local restaurant near Manaus. In the afternoon, you can also visit a rubber plantation, where latex is manufactured from the rubber tree. The city of Manaus was built on the rubber boom of the early 19th century, and today, rubber is still an important export from the Amazon Rainforest. Next, visit a caboclo village in the rainforest.

Activities:

## FISHING TOUR

Experience the thrill of fishing along the Amazon River and its tributaries on this fishing tour. Along with a guide, you'll head down the river in a motorized canoe, in search of fishing spots for catching piranha, tambaqui, tucunaré, pirarucu, pacu, or other fish depending on the season.

Activities:

## VISIT TO THE CABOCLOS HOUSE

Learn about Caboclos, or Amazonians, who live in villages along the Amazon River and deep in the Amazon Rainforest. Accompanied by a guide, you can visit a village, meet the locals, and see the dances and rituals of these jungle communities.

Activities:

## OTHERS

**Sunrise Tour** Perfect for birdwatchers, this sunrise tour departs before breakfast and takes you along the river to see the Amazon sunrise. You can also see several species of birds as they wake early. **Jungle Survival Training** The Jungle Survival Training course gives you an introduction to surviving in the rainforest. Accompanied by professional guides, you'll go trekking deep into the jungle and learn how to build shelters using natural resources, make traps for hunting, and learn about basic orientation using a compass. Also learn basic first aid, how to make a fire, find water from natural resources, and decipher which plants are edible. A picnic lunch of sandwiches, fruits, barbecue of chicken or piranha, and soup is included. An overnight version is also offered for those who really want to experience life in the jungle. Hammocks protected by "tapirs" (thatched roofs) is included, and breakfast consists of coffee, bread, and fruits.
