ITINERARY USHUAIA (3N)

Day 1 USHUAIA

Check in between 10:00 and 16:00 at 409 San Martín Street. Board the cruise ship at 17:30. After a welcoming cocktail reception hosted by the Captain and his crew, the cruise will depart for one of the remotest parts of the planet. Begin your voyage sailing through the Strait of Magellan and Beagle Channel to explore one of the most breathtaking wilderness regions in the world: Southern Patagonia, which includes the Tierra del Fuego archipelago.

Day 2

GARIBALDI & PIA GLACIER - GLACIER ALLEY

In the morning, you will enter Garibaldi Fjord where you will disembark for a hike through the forest up to a glacial waterfall. Enjoy the spectacular views here! If you're not feeling up for a hike, relax on board. Your Captain will point the bow towards the beautiful blue Garibaldi Glacier. Head to the upper decks for a breathtaking panoramic view.

In the afternoon, you will continue along the Northwest arm of the Beagle Channel to reach Pia Fjord, where you will disembark. Take another short hike to reach spectacular views of the Pia Glacier. The Pia Glacier extends from the mountaintops down to the sea. After this memorable experience, continue your voyage along the Beagle Channel through the majestic Glacier Alley.

Day 3

CAPE HORN - WULAIA BAY

Sail through Murray Channel and Nassau Bay to reach Cape Horn National Park, where, if weather permits, you will go ashore. The legendary Cape Horn was discovered in 1616 and is a sheer 425-meter (1,394-foot) high rocky promontory. For many years it was an important navigation route between the Pacific and the Atlantic, and is referred to as the "End of the World". The park was declared a World Biosphere Reserve by UNESCO in 2005.

In the afternoon, disembark the ship and head ashore! Visit the historic Wulaia Bay, originally the site of one of the region's largest Yamana aboriginal settlements. Charles Darwin landed in Wulaia Bay in 1833 during his voyage on the HMS Beagle. This area is renowned for the beauty of its vegetation and geography. Take an enchanted walk through the Magellan Forest of lengas, coigües, canelos, ferns, and other endemic vegetation, to reach, yet another, gorgeous landscape view.

Day 4 **USHUAIA**

Acknowledged as the southernmost city in the world, Ushuaia was founded in 1884 and was one of the original points of encounter between the Yamana and Anglican cultures. Its name derives from the Yamana word for "penetrating bay" and it is surrounded by the last high peaks of the Andes. Today, it is one of the largest cities on Tierra del Fuego Island, with around 65,000 inhabitants.

Once the ship reaches Ushuaia, you will unfortunately disembark. Head to the airport for your flight home or take this opportunity to explore the city.
